

ATTENTION VIRGINIA

I have your shit! In *my* possession, right now, are 8,257,378 patient records and a total of 35,548,087 prescriptions. Also, I made an encrypted backup and deleted the original. Unfortunately for Virginia, their backups seem to have gone missing, too. Uhoh :(

For \$10 million, I will gladly send along the password. You have 7 days to decide. If by the end of 7 days, you decide not to pony up, I'll go ahead and put this baby out on the market and accept the highest bid. Now I don't know what all this shit is worth or who would pay for it, but I'm bettin' someone will. Hell, if I can't move the prescription data at the very least I can find a buyer for the personal data (name,age,address,social security #, driver's license #).

Now I hear tell the Fucking Bunch of Idiots ain't fond of payin out, but I suggest that policy be turned right the fuck around. When you boys get your act together, drop me a line at hackingforprofit@yahoo.com and we can discuss the details such as account number, etc.

Until then, have a wonderful day, I know I will ;)
